Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

NAVIGATION

SEO

These checks ensure that your page is following basic search engine optimization advice. There are many additional factors Lighthouse does not score here that may affect your search ranking, including performance on [Core Web Vitals](#). [Learn more about Google Search Essentials](#).

CONTENT BEST PRACTICES

<div><div></div><div>Document does not have a meta description</div></div>	▼
Format your HTML in a way that enables crawlers to better understand your app’s content.	

CRAWLING AND INDEXING

<div><div></div><div>robots.txt is not valid — 18 errors found</div></div>	▼
To appear in search results, crawlers need access to your app.
